BACKGROUND:

Article 3 of the TDA, Public Utilities Code (PUC) Section 99200 et seq., authorizes submission of claims to a regional transportation planning agency for the funding of projects exclusively for the benefit and/or use of pedestrians and bicyclists. The MTC, as the regional transportation planning agency for the San Francisco Bay region, has adopted MTC Resolution No. 4108 delineates procedures and criteria for submission of requests for the allocation TDA Article 3 funds. Each claimant whose project or projects have been prioritized for inclusion in the Fiscal Year 2020/2021, TDA Article 3 Countywide coordinated claim is required to submit a resolution from its governing body to MTC requesting an allocation of TDA Article 3 funds.

On February 25, 2020, four members of the City-County Engineering Advisory Committee (CCEAC), and three members of the Countywide Bicycle Advisory Committee (CBAC) performed a field review of the project applications. At that time, the allocation from Metropolitan Transportation Commission (MTC) was estimated at \$845,000. The funding recommendations for those projects were approved by the CCEAC at their April 16, 2020 meeting, and subsequently approved at the Contra Costa Mayor's Conference at their May 7, 2020 meeting. The County was recently notified by MTC that due to the COVID-19 Pandemic, the allocation is estimated at \$557,700, a reduction of almost 33%. For this reason, the recommended funding listed in Attachment A are approximately 33% less than the funding recommendations approved by CCEAC and the Contra Costa Mayor's Conference.

CONSEQUENCE OF NEGATIVE ACTION:

Failure to approve the recommendation and forward the list will eliminate a potential funding source.
