BACKGROUND: (CONT'D)

Based on the scope and scale of the project, the Department determined an Environmental Impact Report (EIR) should be prepared in order to evaluate the potential environmental impacts of the project. The County awarded a contract to FCS (Contract #46393), who is currently in the process of preparing the document. Due to the number of comments received during the Draft EIR public comment period, additional work and additional funds will be required to complete the Final EIR. The increased expenditure limit of \$16,700 is needed to complete the remaining tasks for the environmental review.

CONSEQUENCE OF NEGATIVE ACTION:

If unapproved, DCD will be unable to complete the environmental review for the pending land development application.
