BACKGROUND: (CONT'D)

health services, many of whom are chronically homeless. Research shows that costs can be reduced by nearly \$50,000 per person when placed in permanent supportive housing.

The CoC builds on the successes of CCHS in permanent supportive housing projects, which spans 20 years and is considerable in every aspect including outreach and assessment to housing placement and retention. CCHS oversees the referral process, leasing of units, and consumer services. This includes case management, coordination of supportive services, administering the housing application process, and assistance with housing information.

Approval of Grant Agreement #29-822-2 will allow County to continue to receive funding for the CoC, including supportive housing and support services to HUMS homeless individuals, through November 30, 2021.

CONSEQUENCE OF NEGATIVE ACTION:

If this agreement is not approved, County will not be able to better assist its homeless population with supportive housing and support services.
