improve identification of and services for high-risk victims, while better monitoring

BACKGROUND: (CONT'D)

high-risk offenders to reduce domestic violence-related homicides and near homicides. This Project will document and disseminate solutions for replication across the country.

The Project has been implemented in phases - an assessment phase (Phase I) and an implementation phase (Phase II). OVW completed Phase I in September 2014 and selected the Alliance as one of four sites to participate in Phase II of the Project and implement the Lethality Assessment Program (LAP), a recognized promising practice. In 2016, OVW renewed funding in order for the Alliance to continue implementation of the LAP model (Phase III). The Alliance engaged STAND! For Families Free From Violence to assist in carrying out activities consistent with the funding application. The board approved a contract with this Contractor on November 12, 2019 (c.32).

This proposed amendment is to increase services by adding emergency housing provisions and Crisis Line coordination.

CONSEQUENCE OF NEGATIVE ACTION:

Valuable services to victims of violence will not be provided.
