cc:

BACKGROUND:

Contra Costa County Regional Medical Center (CCRMC) is in need of new permanent CT (Computed Tomography) Machine. Due to the value CT images provide in identifying COVID 19 infections and as part of the effort in combating the COVID 19 pandemic, a new CT Unit trailer has been approved for installation next to the existing MRI unit. A portion of the trailer will be anchored to a concrete pad while the other portion will rest on a platform supported by concrete piers. Excavations up to 4 feet will be required to install the foundation. On April 28, 2020, the Board of Supervisors awarded a job order contract (JOC) for repair, remodeling, and other repetitive work to be performed pursuant to the Construction Task Catalog to each of Mark Scott Construction, Inc., Aztec Consultants, MVP Construction, and Staples Construction Company, Inc., each in the amount of \$2,500,000. This project is expected to be performed by one of the four JOC contractors. A task order catalogue has been prepared for the JOC contractor to complete this Project. In the event that the Project is not performed by the JOC contractor, the Public Works Department will return to the Board for approval of plans and specifications and authorization to advertise and solicit bids.

CONSEQUENCE OF NEGATIVE ACTION:

Delay in approving the project may result in a delay of construction and may limit CCRMC's capacity to monitor patients infected with COVID 19.
