of West and East Contra Costa, including Richmond, Pittsburg and Antioch, have some of the highest rates of opioid overdose deaths for all ages in the county, indicating that misuse of opioid and OUD is an issue in these areas. Because most adults with OUD started using opioid before age 25, misuse of opioid and OUD among youth and young adults in these areas is a concern.

Approval of Grant Amendment #28-900-3 will allow county to receive additional funds to provide prevention screening, intervention, and treatment services for youth to reduce OUD through August 31, 2021.

CONSEQUENCE OF NEGATIVE ACTION:

If this grant amendment is not accepted, County will not receive additional funds to reduce opioid use disorder and opioid overdose among youth in East and West Contra Costa County.
