BACKGROUND: (CONT'D)

This contract meets the social needs of the County's population by providing family-centered alcohol and drug treatment services to pregnant and parenting women and their children, in order to prevent perinatal substance abuse and improve birth outcomes.

On June 8, 2021, the Board of Supervisors approved Contract #24-429-72, with Ujima Family Recovery Services to provide residential and outpatient treatment for pregnant and parenting women and their young children, in amount not to exceed \$3,273,091, for the period from July 1, 2021 through June 30, 2022.

In October 2021, the County Administrator approved and the Purchasing Services Manager executed Administrative Agreement #24-429-73, to allow for non-material changes to the payment provisions and fee schedule, to reflect the intent of the parties, with no change in the original payment limit of \$3,273,091, and no change in the original term of July 1, 2021 through June 30, 2022.

On February 1, 2022, the Board of Supervisors approved Amendment Agreement #24-429-74, to modify rates for residential treatment for pregnant and parenting women and their young children, with no change in the original payment limit of \$3,273,091, and no change in the original term of July 1, 2021 through June 30, 2022.

The delay of this amendment was due to the resurgence of COVID-19 which has created service interruptions, productivity declines and cash flow issues with the community based behavioral health service providers. This allows the need to maintain a viable service delivery network to ensure access to needed behavioral health services with the County.

Approval of Amendment #24-429-75 will allow for rate modifications due to COVID-19 service impacts and as aligned with Mental Health standards, and allow the contractor to continue to provide services through June 30, 2022.

CONSEQUENCE OF NEGATIVE ACTION:

If this amendment is not approved, the residents of Contra Costa County may experience reduced or discontinued behavioral health services.
