Health Centers. The OSHPD is authorized by the Song-Brown Health Care Workforce Training Action, Section 128225 to issue grants for the purpose of supporting programs that train family and primary care physicians, osteopathic family physicians, primary care physician's assistants, registered nurses and primary nurse practitioners to provide needed services in areas of unmet need with the State.

BACKGROUND: (CONT'D)

On July 28, 2020, the Board of Supervisors approved Agreement #29-611-38 with the Office of Statewide Health Planning and Development, in an amount not to exceed \$375,000 for continuation of the Family Practice Residency Program at CCRMC and Contra Costa Health Centers, for the period June 30, 2020 through August 15, 2023.

On August 4, 2021, the Office of Statewide Health Planning and Development (OSHDP) changed its name to the Department of Health Care Access and Information (HCAI). This agreement is being processed late due to an administrative oversight by CCRMC to process the documents in a timely manner.

Approval of Standard Agreement #29-611-39 will allow continuation of the Family Practice Residency Program at Contra Costa Regional Medical Center and Contra Costa Health Centers including training for an additional family practice resident for a three-year term. This agreement includes a provision requiring the County to indemnify and hold harmless the State for any and all claims arising out of performance of the agreement.

CONSEQUENCE OF NEGATIVE ACTION:

If this contract is not approved, the County will not receive funding to continue providing family medicine training in the Family Practice Residency Program at Contra Costa Regional Medical Center and Contra Costa Health Centers.
