included agreeing to indemnify and hold the State harmless for claims arising out of the County's performance under the Agreement. The County has been contracting with the State for these services since 2012.

The goal of the managed care project is to provide covered mental health services, including medication support, day treatment intensive, day rehabilitation, crisis intervention, crisis stabilization, adult residential treatment, crisis residential, psychiatric health facility and targeted case management services. Covered mental health services include psychiatric inpatient treatment and early periodic screening, diagnosis and treatment (EPSDT) supplemental specialty mental health services.
