train family and primary care physicians, osteopathic family physicians, primary care physician's assistances, registered nurses and primary nurse practitioners to provide needed services in areas of unmet need with the State.

The County has been contracting with OSHPD for the Family Practice Residency Program services since 1978. On August 4, 2021, the Office of Statewide Health Planning and Development (OSHPD) changed its name to the Department of Health Care Access and Information (HCAI).

Approval of Standard Agreement #29-611-40 will allow continuation of the Family Practice Residency Program at Contra Costa Regional Medical Center, including training for an additional family practice resident for a three-year term. This agreement includes a provision requiring the County to indemnify and hold harmless the State for any and all claims arising out of performance of the agreement.

CONSEQUENCE OF NEGATIVE ACTION:

If this contract is not approved, the County will not receive funding to continue providing family medicine training in the Family Practice Residency Program at Contra Costa Regional Medical Center and Contra Costa Health Centers.
