BACKGROUND:

The Health Services Department's Public Health Division maintains a TB Control Program, which serves all reported TB patients and their contacts in Contra Costa County. Outreach services are provided to reach the "Hard-to Reach" people with TB and those at high risk. The TB control staff work within the Communicable Disease Section in collaboration with the HIV/AIDS Program, Substance Abuse Programs, Contra Costa Regional Medical Center and Health Centers, and providers throughout the County. This grant has been awarded to Contra Costa County since 1990.

On June 8, 2021, the Board of Supervisors approved acceptance of Grant Award #29-393-33 with the California Department of Public Health, TB Control Branch, for the TB Control Program, to pay the County an amount of up to \$304,417, for the County's TB control program for the period from July 1, 2021 through June 30, 2022.

Approval of Grant Award

BACKGROUND: (CONT'D)

Amendment #29-393-34 will allow the Department to receive additional funds for FSIE allotment of \$5,000 for clients diagnosed with TB through June 30, 2022.

CONSEQUENCE OF NEGATIVE ACTION:

If this contract is not approved, the County will not receive additional funds for services which would result in a decrease in the number of TB patients who receive appropriate FSIE and treatment, therefore increasing the spread of TB.
