

**Contra
Costa
County**

To: Contra Costa County Flood Control District Board of Supervisors
From: Brian M. Balbas, Public Works Director/Chief Engineer
Date: January 10, 2023

Subject: Accept the Drainage Fee Program Annual Report, Countywide.

RECOMMENDATION(S):

ACCEPT the Contra Costa County Flood Control and Water Conservation District (FC District) Drainage Fee Program Annual Report (Report) for fiscal year 2021/22, as recommended by the Chief Engineer, FC District, Countywide.

FISCAL IMPACT:

No fiscal impact.

BACKGROUND:

The FC District Act (FCD Act) authorizes the FC District to set up drainage areas and associated fees (Section 12.2, FCD Act). The FC District is not the approving local agency of development projects. The approving local agency is either the city in which the development is located or the county, when the development is located in an unincorporated area. However, the FC District does recommend that the local approving agency collect a fee to support drainage infrastructure if the development is within a formed drainage area. The fee is described in each drainage area's ordinance that is approved by the County Board of Supervisors. The FC District has an agreement with each city allowing each city to collect the fee on behalf of the FC District during the typical land development process and

approval.

BACKGROUND: (CONT'D)

For the purpose of transparency and recordkeeping, FC District staff produces this Report as a best practice. The FC District uses requirements listed in California Government Code Section 66006, and others listed below, as the guide for this Report.

In conjunction with state law requirements that apply to impact fees paid in connection with the approval of a development project, California State legislation set certain legal and procedural parameters for the charging of development impact fees. This legislation was passed as AB1600 by the California Legislature and is now codified as California Government Code Sections (GC §) 66000 through 66025 (the “Mitigation Fee Act”). The Mitigation Fee Act imposes requirements on local agencies related to the accounting of fee revenues and expenditures. The FC District’s Drainage Fee Program consists of approximately 50 separate fee areas or boundaries throughout Contra Costa County, each with a separate list of eligible projects and a separate account to ensure that revenue collected from developments within a specific drainage area boundary will be spent specifically for projects identified within that drainage area.

The attached Report provides accounting information for each of the drainage areas and is current as of the end of fiscal year 2021/22.

CONSEQUENCE OF NEGATIVE ACTION:

Without the approval of the Board of Supervisors, the Report would not be accepted and would, therefore, be unavailable.
