intersection.

The Project is ready to be constructed, therefore; environmental construction monitoring will be necessary for the duration of the Project. Due to Condor's heavy involvement with the required special studies, the Public Works Department has determined that Condor is best qualified of the three consultants solicited to conduct environmental construction monitoring and reporting during the construction of the Project.

CONSEQUENCE OF NEGATIVE ACTION:

Without Board approval, monitoring required by the California Environmental Quality Act (CEQA), National Environmental Policy Act (NEPA), and East Contra Costa County Habitat Conservation Plan (HCP) clearances will not be conducted, which may delay the construction of the Project and jeopardize funding.

CHILDREN'S IMPACT STATEMENT:

Not Applicable.
